

Traffic Accommodation Plans for the resurfacing of MR577 / Inanda Road Intersection between 7 and 10 April 2017

The eThekweni Municipality is in the process of dramatically improving public transport in the City through the construction of a world class Integrated Rapid Public Transport Network (IRPTN). Forming part of the network is the C3 route which will connect the areas of Bridge City and Pinetown with one another.

Group Five Construction has been appointed for the construction of a portion of the route. Included in the scope of works is the resurfacing of the roadway at the intersection of Inanda Road and the MR577 which will take place 7 – 10 April 2017.

In order to allow for this construction, traffic flow will need to be re-routed as follows:

- The entire section in the centre of the intersection will be closed off to traffic.
- Traffic heading north and south at Inanda intersection will access the deviation in the middle of the road allocated for traffic.
- Traffic heading east and west of Inanda intersection will not be disrupted.

Drivers are to be aware that there will be a traffic safety officer present at all times and four flagmen will be placed at the intersection, day and night, to control traffic.

The work will be carried out from 07h00 on Friday, 7 April 2017 until 06h00 on Monday, 10 April 2017.
